Dear All,

If you follow the email trail below, you will see that I have asked Julian Baker to remove the page on his Functional Fascia website that is about me and he has refused. Moreover, he seems to be trying use the webpage as leverage to blackmail me. I will be taking this matter further, but in the meantime must step down from the Council of the IAS, because I cannot serve with someone who behaves in this manner.

Best wishes,

Ceri
