Dear Sir/Madam

I would like to take this opportunity to recommend Julian Bakers Fascial Dissection course.

Julian and his students have visited our department at Oxford for the past several years and I found dealing with him and them an absolute pleasure. They take care of themselves and have the upmost respect for the donors. When the course comes to a close they even say a few words of thanks to the donors themselves. They are very respectful to the donors, staff and facility.

I have no hesitation in inviting them back here again should they so wish and in fact Julian has a course booked with us in 2018.

Best wishes
